

Göttingen Sensory Lecture

“Inferring biophysical models of retinal neurons from data”

Speaker

Prof. Dr. Philipp Berens

University of Tübingen, Institute for Ophthalmic Research
Berens Lab, Neural Data Science for Vision Research

Date/time

Friday, February 21st, 2020, 12:00 s.t.

Location

Lecture hall 552, University Medical Center (UMG)
Robert-Koch-Straße 40

Host

Prof. Dr. Tim Gollisch

Universitätsmedizin Göttingen
Gollisch Lab, Sensory Processing in the Retina
